Jim Sheldon Dean

Director of Compliance Services,
Lewis Creek Systems, LLC

Jim Sheldon-Dean is the founder and director of compliance services at Lewis Creek Systems, LLC, a Vermont-based consulting firm founded in 1982, providing information privacy and security regulatory compliance services to a wide variety of health care entities.

Sheldon-Dean serves on the HIMSS Information Systems Security Workgroup, has co-chaired the Workgroup for Electronic Data Interchange Privacy and Security Workgroup, and is a recipient of the WEDI 2011 Award of Merit.

Overview :

Day one sets the stage with an overview of the HIPAA regulations including HIPAA Breach Notification and the process that must be used to determine whether or not a breach is reportable, and then continues with presentation of the specifics of the Privacy Rule, recent changes to the rules, and the basics of the Security Rule.

Rules about Patient Rights and the limitations on uses and disclosures by covered entities will be explained, including recent guidance on access of PHI by individuals and sharing information with family and friends of a patient, and the latest rule changes for substance abuse information under 42 CFR Part 2.

Agenda:

Day One

Lecture 1: Overview of HIPAA Regulations

- The Origins and Purposes of HIPAA
- Privacy Rule History and Objectives
- Security Rule History and Objectives
- Breach Notification Overview and Analysis of Duty to Report

Lecture 2: HIPAA Privacy Rule Principles, Policies and Procedures

- Patient Rights under HIPAA, including Rights of Access
- Limitations on Uses and Disclosures
- Required Policies and Procedures
- Training and Documentation Requirements

Lecture 3: Recent and Proposed Changes to HIPAA and Related Rules

- New Penalty Structure and HIPAA Audit Program
- New Patient Rights to Restrict Disclosures to Health Plans
- New Accounting of Disclosures Rules
- New Rules for Sharing Information under 42 CFR Part 2
- Impacts of 21st Century Cures Act and Repeal of ACA

Lecture 4: HIPAA Security Rule Principles

- General Rules and Flexibility Provisions
- The Role of Risk Analysis
- Security Safeguards
- Training and Documentation

Why should you attend:

The HIPAA Regulations carry significant obligations to protect the privacy and security of Protected Health Information, and significant penalties in the millions of dollars can result from non-compliance.

Even if you have worked on your HIPAA compliance in the past, you could be out of compliance today because of the changes to the rules, new guidance, changes in how you do business and manage PHI, changes to the threats to privacy and security, and even changes in other laws and policies not directly related to HIPAA.

Day Two

Lecture 1: HIPAA Security Policies and Procedures and Audits

- HIPAA Security Policy Framework
- Sample Security Policy Content
- New Policies and New Guidance from NIST
- The New HIPAA Compliance Audit Protocol

Lecture 2: Risk Analysis for Security and Meaningful Use

- Principles of Risk Analysis for Information Security
- Information Security Management Process
- Risk Analysis Methods
- Risk Analysis Example

Lecture 3: Risk Mitigation and Compliance Remediation

- Typical Security Risks
- Social Media, Texting, e-mail, and Privacy
- Dealing with Portable Devices and Remote Access
- Compliance Planning

Lecture 4: Documentation, Training, Drills, Self-Audits, and Long Term Compliance Planning

- How to Organize and Use Documentation to Your Advantage
- Training Methods and Compliance Improvement
- Conducting Drills in Incident and Audit Response
- Using the HIPAA Audit Protocol for Documentation and Self-Auditing
- Planning your Compliance Work into the Future

Who Will Benefit:

- HIPAA Privacy Officers
- HIPAA Security Officers
- Information Security Officers
- Risk Managers
- Compliance Officers
