

2-day In-person Seminar:

New FDA FSMA Rules on the Sanitary Transportation of Human and Animal Foods

-  Seattle, WA
-  March 16th & 17th, 2017
-  8:30 AM to 4:30 PM

John Ryan

President , TransCert ,
QualityInFoodSafety , RyanSystems

Dr. John Ryan's quality system career has spanned the manufacturing, food, transportation and Internet industries over the past 30 years. He has worked and lived extensively throughout Asia and the U.S. at the corporate and facility levels for large and small companies as a turn-around specialist. His clients have included Seagate Technology, Read-Rite, Destron IDI, Intel, and GSS-Array. He has consulted, taught at the university graduate level, and is a retired quality assurance administrator from the Hawaii State Department of Agriculture. He holds a Ph.D. and has been involved in the quality profession for over 30 years on an international basis and in a variety of industries.

Overview :

Transportation and Logistics food transportation food safety rules are currently being finalized by the U.S. Food and Drug Administration (FDA). Under congressional instructions, the Food Safety Modernization Act (FSMA) requires the FDA to establish rules to improve, audit and enforce new food transportation rules. The rules provide a significant focus on foods not completely enclosed by a container, risk reducing adulteration prevention, personnel training and certification, inspection and data collection, maintenance and reporting that provides evidence of compliance.
