

2-day In-person Seminar:

HIPAA Privacy, Security and Breach Notification Compliance: Understanding the Requirements, Preventing Incidents, Surviving Audits, and Avoiding Penalties

-  Washington, DC
-  March 23rd & 24th, 2017
-  9:00 AM to 6:00 PM

Jim Sheldon Dean

*Director of Compliance Services,
Lewis Creek Systems, LLC*

Jim Sheldon-Dean is the founder and director of compliance services at Lewis Creek Systems, LLC, a Vermont-based consulting firm founded in 1982, providing information privacy and security regulatory compliance services to health care firms and businesses throughout the Northeast and nationally. Sheldon-Dean's firm provides a variety of advisory, training, assessment, policy development, project management and mitigation services for a number of health care providers, businesses, universities, small and large hospitals, urban and rural mental health and social service agencies, health insurance plans and health care business

Overview :

This session is designed to provide intensive, two-day training in HIPAA compliance, including what's new in the regulations, what's changed recently, and what needs to be addressed for compliance by covered entities and business associates.

The session provides the background and details for any manager of healthcare information privacy and security to know what are the most important privacy and security issues, what needs to be done for HIPAA compliance, and what can happen when compliance is not adequate.

Audits and enforcement will be explained, as well as privacy and security breaches and how to prevent them. Numerous references and sample documents will be provided.

Agenda:

Day One

Day one sets the stage with an overview of the HIPAA regulations and then continues with presentation of the specifics of the Privacy Rule, recent changes to the rules, and the basics of the Security Rule

Lecture 1: Overview of HIPAA Regulations

- The Origins and Purposes of HIPAA
- Privacy Rule History and Objectives
- Security Rule History and Objectives
- Breach Notification Requirements, Benefits, and Results

Lecture 2: HIPAA Privacy Rule Principles, Policies and Procedures

- Patient Rights under HIPAA
- Limitations on Uses and Disclosures
- Required Policies and Procedures
- Training and Documentation Requirements

Lecture 3: Recent and Proposed Changes to the HIPAA Rules

- New Penalty Structure
- New HIPAA Audit Program
- New Patient Rights
- New Obligations for Business Associates

Lecture 4: HIPAA Security Rule Principles

- General Rules and Flexibility Provisions
- The Role of Risk Analysis
- Security Safeguards
- Training and Documentation

Day Two

Day two begins with a detailed examination of HIPAA Security Rule requirements and what must be done to survive audits by the US Department of Health and Human Services, including an examination of how risk analysis can be used to drive compliance by the systematic examination of information flows and mitigation of risks discovered, and an exploration of the official HHS HIPAA Audit Protocol, including how to use the protocol to help manage your compliance work and its documentation. Finally, the day concludes with a session on the essential activities of documenting policies, procedures, and activities, training staff and managers in the issues and policies they need to know about, and examining compliance readiness through drills and self-audits.

Lecture 1: HIPAA Security Policies and Procedures and Audits

- HIPAA Security Policy Framework
- Sample Security Policy Content
- Recommended Level of Detail for Policies and Procedures
- The New HIPAA Compliance Audit Protocol

Lecture 2: Risk Analysis for Security and Meaningful Use

- Principles of Risk Analysis for Information Security
- Information Security Management Process
- Risk Analysis Methods
- Risk Analysis Example

Lecture 3: Risk Mitigation and Compliance Remediation

- Typical Security Risks
- Social Media, Texting, e-mail, and Privacy
- Dealing with Portable Devices and Remote Access
- Compliance Planning

Lecture 4: Documentation, Training, Drills and Self-Audits

- How to Organize and Use Documentation to Your Advantage
- Training Methods and Compliance Improvement
- Conducting Drills in Incident Response
- Using the HIPAA Audit Protocol for Documentation and Self-Auditing
